Action needed

Fabrikam Dental Group's Microsoft 365 has a critical security gap that should be fixed now.

Most urgent: 1 admin without MFA, and 2 whose registration isn't known.

At a glance

We ran 64 security checks and 49 need attention (1 critical, 15 high, 20 medium and 13 low priority).

On the positive side, 15 checks passed, including “Between 2 and 4 Global Administrators”, “Automatic forwarding to outside addresses is off” and “The Microsoft 365 audit log is on”.

Since 26 September, users with MFA rose from 46.1% to 50%, 2 issues were fixed and 17 new items came up.

About £164.40 a month (£1,972.80 a year) goes on licences that are unused or assigned to disabled or inactive accounts.

7 checks couldn't run because the data or a licence they need is missing.
